WORKING EXPERIENCE

Kominfo, Purworejo   May- Oct 2024

Full Stack Web Developer
- Developed a web-based inventory management system to support internal operational efficiency.
- Collaborated with the IT team to ensure smooth system integration and user functionality.
- Participated in team discussions and implemented real-time feedback from supervisors.
- Gained practical experience in full stack development, focusing on back-end logic and user interface design using Laravel & MySQL.

Freelance, Remote   Dec 2022 – Present

Web Developer
- Developed custom websites for various clients, including company profiles, portfolios, and e-commerce platforms.
- Used Laravel, CodeIgniter, and MySQL to deliver full-stack web solutions.
- Worked directly with clients to define requirements, timelines, and deliverables.
- Delivered projects both remotely and onsite, ensuring user-friendly design and responsive layouts.

Family-Owned Business, Cerntral Java   Nov – Dec 2022

Designer & PhotoEditor
- Created custom logos, product packaging stickers, and digital marketing materials for local small businesses.
- Edited product photos and social media visuals to improve brand presentation and consistency.
- Utilized tools such as CorelDRAW, Canva, and Lightroom for end-to-end visual production.
- Collaborated closely with the business owner to understand design needs and deliver appropriate visual assets.

EDUCATION

Sawunggalih Aji Polytechnic of Kutoarjo, Central Java   2021 – Sep 2024

Associate Degree in Informatics Engineering

GPA 2.96 of 4.00

ACHIEVEMENTS
